## WE CHARGE WHAT WE'D CHARGE OUR MOMS! WE WON'T STING YOU!™

### HVAC Maintenance Savings

Do you like saving money? If you answered “no”, then quit reading this article. If you answered “yes”, then you need to get your HVAC system serviced. Why? Just like you service your car (oil changed, filter changed, grease everything, etc.) to save you money on big repairs later, your furnace and air conditioner need the same treatment. This will help keep your system efficient, saving on utilities, and will keep you from having avoidable repair issues.

### House Too Dry? We Can Fix That!

With winter approaching quickly, you may soon start noticing the dry skin that you always put lotion on or shocking your kids every time you touch them from the static electricity. Although low humidity is not harmful, it can be quite obnoxious and you may want it fixed. That’s where we come in. We can install a humidifier that runs through your current HVAC system. When we come to your house to perform your bi-annual maintenance we will service the humidifier as well. There will be no other maintenance required by you. Our Aprilaire humidifiers carry a 5 year warranty (much better than that you may find in a home improvement store). We have been installing Aprilaire products for nearly 15 years. We have been approached by several other brands, but nothing compares to the quality and performance. If you would like some more information or a free estimate, give us a call/email!

Effective January 1, 2014, there will be a 2.5% credit card convenience fee.

The Warehouse is Done and Ready To Move Into!

Our new warehouse space is complete and we are ready to start moving in all our inventory. We will be stocking cash n carry parts, including filters, capacitors, thermostats, etc. It will be a convenient stop for you without fighting traffic to go downtown or dealing with all the chaos at the home improvement stores (that likely don't have what you need). We are hoping to make your life a little easier!

Happy Fall!
