

# BEESON MECHANICAL SERVICE COMMERCIAL RESIDENTIAL™

BEESON MECHANICAL SERVICE, INC.™

Quarter 2, 2010  
(April-June)

## The *BUZZ* from *BEE*son

Spring has come!!!! It's been a whirlwind of a winter so I think it's fair to say we're all glad to see the sun shining, hear the birds chirping, and feel the warmth as we walk outside our homes!

### Recipe: "Spring Pea Salad"

- 1/2 cup fresh mint leaves, torn
- 1 tablespoon capers, roughly chopped
- 1 small shallot, thinly sliced
- 1/2 teaspoon lemon zest, grated
- 1/3 cup extra virgin olive oil
- 1/8 teaspoon kosher salt
- 1/4 teaspoon black pepper
- 1 pound green peas, blanched if fresh, thawed if frozen
- 1/2 cup goat cheese, crumbled

1. In a medium bowl, combine the mint, capers, shallot, zest, oil, salt, and pepper.
2. Add the peas and goat cheese and toss gently.
3. Serve at room temperature.

(This recipe may be found at <http://www.recipezaar.com/>)

## The Rebates Can't Get Any Better

The last newsletter mentioned the Indiana Rebate that would be introduced shortly. We now have that information as well as all other rebates and credits available at this time. Times may be bad but the rebates are great!

The Indiana Rebate program called IHIP provides up to \$1,000 rebate for owner-occupied residences.

The Federal Tax Credit provides a 30% of install tax credit up to \$1,500 for your HVAC system if installed in 2010.

The utility rebates are all very similar and typically send you a check for \$200 for an installation and \$20 for a programmable thermostat. Such utility companies include Vectren, Duke, Citizens, etc.

York currently has a rebate program where you can get up to \$1,200 for an HVAC installation.

If you got the maximum on every rebate/credit, that's like \$3920 back in your pocket. You can essentially get the high end system for the price of a low end system. Now's the time!

Remember that these are generalizations of each rebate or tax credit program. There are details with each one and we can help you sort through those. Please contact us with any questions.

**A/C with Coil  
Installed  
From \$1150**

## It's Clean & Check Time!

Yep...it's that time of year when you need to be thinking about having a clean and check (or tune up) on your air conditioner or heat pump. As you likely know, we offer discounts for service contract customers on the clean and checks as well as additionally throughout the year. The cost varies by location so call us today to inquire on the price in your area.

A clean and check helps prolong the life of your unit. Our technician will clean the appropriate components and make sure it's all in working order before leaving.

## Kaden Update

**Kaden is 2 years old! I can hardly believe it. He had a blast at his Mickey Mouse themed birthday party with close friends and family. He was absolutely thrilled because a few weeks previous, he got to meet Mickey Mouse in person at Disney World. I think that was the happiest he's ever been. And now he talks about Minnie Mouse being his girlfriend. It's just too cute!!!!**

  - Snow Removal and Salt Spreading
  - Generators: Service and Install
  - Dehumidifiers: Commercial and Residential
  - Indoor Air Quality
  - Refrigeration
  - Network and Communication Installation

## Questions and Answers

### Is the old R-22 refrigerant really gone for good?

There are two answers: "yes" and "no". I'm sure that's very helpful, right? To explain more, the answer is "yes" because the EPA ruled that manufacturers may no longer make new equipment with the R-22 as of 1/1/2010. New equipment must contain the new refrigerant, R-410A. The answer is also "no" due to the EPA ruling that it's legal to repair and replace any and all components of existing systems that contain R-22. At this point, R-22 is still allowed to be made in limited quantities until 2015.

### Where can I buy filters and other parts?

As I'm sure you expected, I'm going to tell you Beeson

Mechanical sells all of the parts you need. Now that you're over your shock, I'll tell you some more specifics. Some filters are very difficult to find but we stock most of them and can order ANY size filter you ever need. We continually check our prices with other places you may have purchased in the past, and our prices are very competitive. We also sell consumer parts which include things such as the filters, humidifier pads, thermocouplings, ignitors, capacitors, etc. We also stock most of those and are very competitive on that pricing as well. We will soon have all of these items on our re-vamped website (which is currently in progress).

\*If you have questions you'd like answered, please call or email us for next time!

### Benefits with Beeson™....

- Backed by over 60 years combined experience
- 24 hour emergency service
- Will travel anywhere in central Indiana
- Local, family-owned business
- 4x4 emergency response vehicles (for our rural and snowed-in customers)
