COMMERCIAL RESIDENTIAL

BEESON MECHANICAL SERVICE, INC.™

**Quarter 1, 2011
(January-March)**

“We Charge The Price We’d Charge Our Moms!”™

The *BUZZ* from *BEE*son

We hope you had a very Merry Christmas and best wishes to you this New Year!

Recipe: “Chicken & Noodles”

- 4 boneless, skinless chicken breasts
- 2 cans cream of chicken soup
- 2 cans chicken broth
- 1 package homestyle egg noodles

1. Rinse chicken breasts and cut into chunks. Coat lightly with salt, pepper, and garlic powder (optional). Place in slow cooker.
2. Combine soups and pour over chicken.
3. Cook on low 8 hours. Two hours before serving add package of frozen noodles. Turn to high and stir occasionally.

(This recipe may be found at <http://www.cditchen.com/>)

**If you have a recipe you'd like to share, please mail or email it to us at the information on the back of this page. A coupon will be sent to you shortly after.*

Important: Water Heaters & Water Softeners

Whether you know this or not, we install and service water heaters and water softeners. There are all kinds of brands available through your local home improvement stores. However, we have found they don't typically work as well and are not cost effective. We carry every style of water heater or softener necessary for your house or place of business.

The most common water heaters range from 30-50 gallons and could be gas or electric. For those, we carry 2 brands: Lochinvar and Bradford White. They come with a 6 year parts warranty. We've been installing them for about 10 years now and have many satisfied customers. We also have available the tankless water heaters (Brand: Rinnai). They typically hang on the wall in a closet near your bathroom and are “on demand” water heaters. They warm up the water as you need it. They save money on utility bills. It's a great choice for smaller households. They come with a 10 year heat exchanger warranty. Keep in mind that they aren't perfect for every situation and we can direct you towards your best option.

For water softeners, we choose to carry Water Boss. We have installed them for several years now. They seem to work great, even for the high iron well water. They come with a 3 year parts and 10 year casing warranty.

The correct water heater or water softener for your situation can be determined with a simple phone call. So give us a call today!

 Installed From \$2000**

Our commitment at Beeson Mechanical Service is to provide you the best service at competitive rates. The owners' slogan is "We Charge The Price We'd Charge Our Moms". We try our best and if there are ever problems, we take care of them to the best of our abilities! Please keep this in mind when you have service you need completed or if you're able to refer us to friends or family!

Question and Answer

Why the new slogan?

The new slogan, "We Charge The Price We'd Charge Our Moms!" has come about during this economic recession. The owners want to make sure you realize that we aren't out to price gouge anyone. We simply want to run a successful business and treat people with respect and dignity. We understand that everyone can't afford everything they want or need. We make the prices as reasonable as possible and will work with you to arrange payments if necessary. The 2 owners do work for their mothers (as expected) and the "family rate" is the same as the rate you are charged. We believe it isn't fair to charge different rates to different people. We have lived by this slogan for 11 years now and plan to continue that in the future.

Be Prepared for Snow and Ice!

Just a reminder that we push snow and spread salt at any residential or commercial location. Contracts are available if interested. We work on a first come first served policy so the sooner you call, the better.

Kaden Update

Kaden will be 3 by the time you read the next newsletter!!! He's enjoying playing with his two grandmas through the week but still visits mommy and daddy at work. He loves going to "the shop". If you ever stop by, you'll find a cabinet with trucks that are obviously not indestructible. At this point, he absolutely loves Mickey Mouse! We hope for a trip to Disney World soon.

 - Residential
- Indoor Air Quality
- Refrigeration
- Network and Communication Installation

What's a humidifier and why do I need one?

A humidifier connects to the ductwork for your furnace and puts moisture in the air as needed. It has different levels so you can set it to your comfort. A whole house humidifier works much better than a stand alone one you can purchase at a local home improvement store because it takes care of all rooms in your house. Prices are very comparable as well. If you experience static electricity (shocking yourself every time you touch metal), dry skin, dry eyes, dry sinuses, or several other symptoms, a humidifier will fix that problem. We install Aprilaire humidifiers which come with a 5 year parts warranty. We also service any other brand if you have an existing humidifier which doesn't seem to be working properly.

*If you have questions you'd like answered, please call or email us for next time!
