Tips to Prepare for Winter

We all have a laundry list of things we need to take care of in the fall to prepare for winter. However, it is very difficult to remember them all. Here is a checklist of some things that you need to take care of but can easily slip your mind.

- Empty and store garden hoses
- Winterize all lawn mowers
- Check oil, tires, brakes, windshield wipers in your vehicle
- Put warm clothes, first aid kit, shovel, window scraper, and any other emergency items in your vehicle
- Do a walk around of your home to make sure the gutters are clear of debris and water, the roof appears to be in good shape, and there's no standing water anywhere.
- Make sure there's nothing in non-heated storage areas (i.e. garage, shed, etc) that could freeze (includes all liquids)
- Keep an emergency kit handy in your home to include flashlights, candles, matches, warm blankets, and any other items you may need if your power goes out
- Check your furnace filter, humidifier pad, and thermostat batteries to make sure they're all clean and working properly for winter

We Have New Truck Wraps & Website Features!

If you have seen one of our newly “wrapped” trucks on the road, you know they stand out. They feature our mascot (bumblebee) and slogan (“We charge what we’d charge our moms. We won’t sting you!”). We are very happy how they turned out and hope you will let us know when we pass you.

We also have updated our website and have some new features on it. One new feature is the “Give Back for Feedback” on our home page. We would love to have some feedback posted about us on Google. To encourage this, we will donate \$10 to Carenet Crisis Pregnancy Center in Whiteland for each posting.

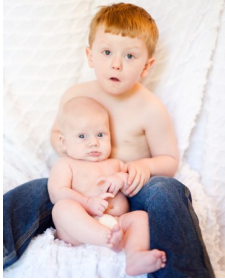

Speaking of winter.....

Make sure you give us a call to service your furnace or air handler.

And don't forget we clear parking lots and driveways of snow on a first come, first served basis!

FREE quotes and 2nd opinions ALWAYS!!!
